

Potomac Valley Swimming Webmaster's/Technology Report

December 13, 2011

Webmaster

Most of the activity on the website is posting of meet announcements, meet information (e.g. psych sheets and estimated timelines), and meet results. Below are a few of the highlights of other activity for the last month.

PVS Scholar Athlete - A total of 183 PVS athletes made this year's list that was posted in November.

<http://www.pvswim.org/1011hs/ScholarAthletes1011.html>

Diversity Page - The Diversity Chair continues to provide content for the diversity page on the PVS website. This month I posted a listing of the Diversity committee and the October 2011 Diversity Newsletter.

<http://www.pvswim.org/diversity.html>

Live Results - The PVS website provided live results for the Tom Dolan Invitational and the Winter Classic last weekend. During the three days (9-11 Dec), the website served over 394,000 pages to over 27,000 visitors with over 9 GB of data transfer.

Technology

Meet Manager 4.0 has been installed on the PVS computers. There are no major changes to the operation of the software. Swim meet databases are interchangeable between MM 3.0 and MM 4.0.

With the encouragement of the Officials Committee, PVS radios were used at all sites of the PVS October and November Open meets. Radios were also provided for the Swim & Rock, Turkey Claus Showdown, Winter Classic, and Tom Dolan Invitational meets.

The report this month was a little light due to other commitments. Comments and suggestions are always welcome.
