

People are coming to the various officials clinics. However, that doesn't always seem to translate to an adequate number of officials at the meets. For instance, one of the Takoma sites of the November Open was without signed up officials two days before the meet. The Cub Run site had five officials for both afternoon sessions, one of which was a trainee starter.

Attached is a spreadsheet showing the results of the clinics so far with the exception of the last clinics held in MD. Denise Wepasnick was in a car accident (she's back at work now) and the papers are in the car in the repair shop.
