

In accordance with Article 8.7.2.A of our by-laws, I offer the following safety report for 2004:

1. In 2004, PVS had 3 injuries reported. This represented less than 1% of the total injuries reported to US SWIMMING for 2003.
2. In the first quarter of 2005, PVS has had 2 reported injuries. Again this represents less than 1% of the total injuries reported to US SWIMMING for the first quarter of 2004.
3. NVPools continues to offer STSC classes through an agreement with PVS.

The PVS web sight continues to offer safety related information. Recently updated items are:

Duties of Club Safety Coordinators

Report of Occurrence Accident Form (in .pdf format)

Coaches corner info on coaches safety training

This is being done at my request in an effort to better disseminate safety information to our member clubs.

USA Swimming is working with the ARC to better coordinate and update the STSC program. I am actively participating in this project

I will be working with Dave over the next year to bring him up to speed on the activities of the safety committee as I will be stepping down as chair in May 2006 with the filing of the 2005 report.

John McDonald
