Report to the PVS House of Delegates

May 2025

The website continues to provide news and information to the PVS community. The information on the website is comprehensive and easy to find. This is based on unsolicited comments I've received from PVS coaches, athletes, and officials and members of other LSCs.

Meet information is posted promptly as soon as a meet is sanctioned. Additional pre-meet information, such as psych sheets, timelines, warmup schedules, and other notes are posted when requested by the meet host.

Results are posted within one day after they are received from the Meet Director. Corrected results are posted as needed.

Information Posted from the 2023-2024 Season

In addition to the meet information listed above and other items requested by board members, the following data has been posted since the beginning of the 2024-2025 season.

- PVS LC Top Times lists from the 2023-2024 season
- PVS club rankings from the 2023-2024 USA-S Virtual Club Championship
- 2024-2028 USA-S National Age Group Motivational Times
- 2023-2024 PVS Outstanding Athletes and Outstanding Distance Athletes
- 2024 Potomac Valley Swimming Coach Award Winners
- Qualifying Times for 2025 PVS SC Senior & Junior Championships
- Qualifying Times for 2025 PVS SC 14&U Championships
- Qualifying Times for 2025 USA Swimming National Meets
 - + USA-S National Championships
 - + TYR Pro Championships
 - + Speedo Junior National Championships
 - + Futures Championships
- PVS Athletes and Relays in the 2023-2024 National Top 10
- Qualifying Times for Spring Eastern Zone Meets
 - + Spring Speedo Sectionals
 - + EZ SC Age Group Championships
- List of PVS Clubs on the 2025 USA Swimming Club Excellence List
- 2023-2024 PVS Scholar Athlete List
- 2023-2024 USA Swimming Scholastic All American List
- Updates of Officials Certification Requirements as directed by the National Officials Committee

High School Meet Results

In 2025, the results of 32 high school meets involving Potomac Valley athletes were posted on the website. Of those meets, 17 were USA Swimming Observed meets by PVS. From those meets, 10,040 times were loaded into the SWIMS database. PVS athletes also participated in many other meets observed by Maryland Swimming and Virginia Swimming.

Top Times Lists

LSC Top Times Lists were tedious to generate and when done a few times each season were a snapshot of the list on that day.

Due to improvements on the USA Swimming website, it is now possible to get up-to-date LSC and Zone top times lists. The USA-S Data Hub is at:

<https://data.usaswimming.org/datahub/usas/timeseventrank> and instructions for generating these top times lists are on the website at: <https://www.pvswim.org/toptimes.html>

Officials Resources

Much time was spent in the last year updating the Officials Certification requirements resulting from the 2023 R-9 legislation and the subsequent direction from the National Officials Committee.

The PVS website is considered by many officials across USA Swimming as the go to resource for training and reference material.

LSC Records

I was able to update the LSC Records for the first time since August 2022. USA Swimming finished, in April, the loading of legacy records (those set before the introduction of SWIMS in the early 2000s). It will be easier to update the records at:

<https://www.pvswim.org/records/pvs_records.html> going forward.

Safe Sport Club Recognition

Working with the PVS Safe Sport Chair, the list of PVS clubs that are Safe Sport Recognized are now listed on the PVS home page. Also, those clubs that achieve Safe Sport Recognition for the first time or renew their Safe Sport Recognition are noted.

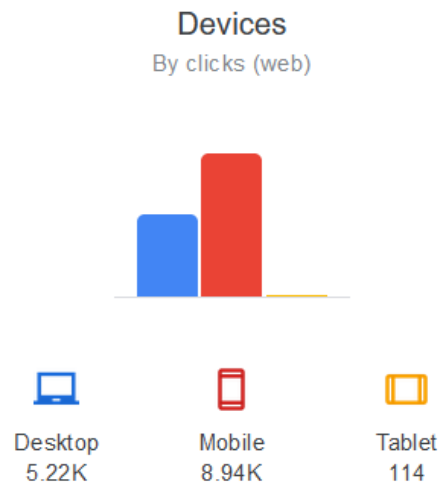

Calendar of PVS Board and Committee Meetings

Per the PVS Bylaws, PVS Board and Committee meetings are open to all. As meetings are scheduled by the various chairs, the date, time, and location (or Zoom link) are posted on the PVS Meetings page: < <https://www.pvswim.org/meetings.html>>. Minutes from the meetings are posted on the PVS Meeting Minutes page: < <https://www.pvswim.org/minutes.html>>.

Website Statistics

This interesting graphic from February 2025 website statistics show that mobile devices are now the overwhelming choice for accessing the PVS website. The website was made mobile friendly (responsive design) in 2016.
